

# THE “TANK” PACKAGE

## What’s NEW at TownHomes?

Inevitably one of the questions that customers have while touring a factory is the size of the roof trusses. Our industry across the board has been used to using a 2”x2” H.U.D. approved rafter system. While the 2x2 truss does meet the latest building requirements, TownHomes would like to offer the “TANK” package for customers wanting full 2x4 rafters. Our solution?

### 2x4 RAFTER PACKAGE

For \$15 a linear ft. 28’ and 32’ wides, TownHomes will use full 2x4 rafters every 24” instead of 2x2’s

## THE “TANK” PACKAGE

For \$26 a linear ft. 28’ and 32’ wides, TownHomes will use:

- 2x8 Floor joists
  - 16” On Center
- 2x6 Exterior Studs
  - 12” On Center Sidewalls
  - 16” On Center End Walls
- 2x4 Roof Trusses
  - 24” On Center
- 2x4 Interior Studs
  - 16” On Center

## THE “TANK DELUXE”

For \$40 a linear ft. 28’ and 32’ wides, TownHomes will use:

- The “TANK” with 16” On Center Rafters
- Tank Deluxe Zone 3 \$34 linear ft.

*Other option:  
Vault the central area for \$500 or add \$150 for each additional room.*
