

Our philosophy of worship leads us to the following conclusions in our worship life as a congregation:

- God's Word is the sole authority for life in our preaching and teaching.
- We have two “classical” worship services each weekend that draw from a breadth of worship music in a more traditional instrumental setting.
- We also have our CrossWalk service in our gymnasium which is focused on meeting the needs of those less comfortable with a more formal worship environment and instrumental setting.
- We are committed to reminding our people that worship is all about God, not about us.
- We celebrate the ordinances of baptism and communion in the context of our morning worship service.
