

# PODCAST 101

## What is a podcast?

A podcast is an easy, new way to share music, videos, and blogs. Podcasts are great to listen to and easy to download.

## Why does UBC have a podcast?

We want to make our services more accessible to our congregation and community via the internet. While you can easily download or listen to sermons at [www.unionbaptistchurch.us](http://www.unionbaptistchurch.us), podcasting is something that will update automatically if you already use iTunes or another media player.

## So how does the podcast work?

You will need to download iTunes to view and listen to the church podcast. You can download it at <http://www.apple.com/itunes/download/>.

From the church website, go to “Listen Online” and “Launch Sermons.” At the bottom right hand of the new window, click “Subscribe to Podcast.” Voila! iTunes will open and the podcast automatically download. From iTunes, you can change your settings to download only new episodes or all episodes. The podcast can also be synced to your iPod or mp3 player.

## Do I have to use the podcast?

Not at all. If you prefer, listen to our services online (see above).
