2018 Action Alliance Directory of Sexual & Domestic Violence Member Agencies

This Directory may also be printed from our website, www.vsdvalliance.org.

Continuously updated. Submit changes to: directors@vsdvalliance.org.
Welcome to the 2018 Directory of Action Alliance Sexual & Domestic Violence Member Agencies in Virginia.¹

These are the kinds of services these agencies offer. Not every agency offers every service. Please call the specific agency for details or call the Virginia Family Violence and Sexual Assault Hotline at 1.800.838.8238 (v/tty).

24-Hour crisis intervention hotlines - for victims, family members, friends and professionals.

Individual Support Services – may be peer-to-peer support or therapy.

Support groups – topics of groups vary by program; can include groups for victims, survivors; friends and family of survivors; groups for teens or children, etc.

Legal advocacy – court accompaniment, explanation of legal options, referrals to attorneys.

Emergency Companion Services – accompaniment to an emergency medical facility or law enforcement agency location.

Information and Referrals – to additional community resources, including social services, mental health, health, housing, and other resources.

Emergency Transportation – available on emergency basis if victim needs to get to shelter; available on more limited basis for victims to get to appointments and meetings.

Crisis Intervention - time-sensitive assessment of and response to immediate needs for persons experiencing sexual and/or domestic violence.

Children Services – varies by program; counseling, support groups and playgroups may be available; teen programs in schools available in some programs.

¹ Please note that there are other groups in Virginia that offer services to survivors of sexual and/or domestic violence in their communities that may not be included in this Directory.
Emergency Housing Services – available through all domestic violence programs, although a few programs do not have their own shelters and may use safe houses, other programs, or hotels to provide shelter; in some cases shelter can be provided to sexual assault victims.

Community Coordination and Systems Advocacy – to enhance the community’s response to sexual and domestic violence.

Safety Planning – an assessment of immediate physical and emotional safety needs with persons who have experienced sexual and/or domestic violence, including children and others directly affected by the violence and help in developing individualized safety plans.

Community Education – trainings, workshops, public service announcements, “freebies” (pens, emery boards, balloons, stickers, etc.), brochures, displays at conferences, and other methods to educate the community about the scope and impact of sexual and domestic violence, as well as how to help.

Outreach and Access for Underserved Populations – agencies determine the underserved populations in their service areas and develop strategies to reach these populations; examples of underserved populations may include non-English-speaking persons; teens; people of color; LGBT community; older women and men; people with disabilities, and others.

This Directory includes:

Current Sexual and Domestic Violence Advocacy Members of the Action Alliance. This category includes private non-profit agencies and units of local government, colleges and universities, and military installations whose primary function (at least 75% of activities) is services to victims of sexual/domestic violence and/or community-based prevention of sexual/domestic violence.
