Welcome to the 2019 Directory of Action Alliance Sexual & Domestic Violence Member Agencies in Virginia.¹

Emergency Housing Services – available through all domestic violence programs, although a few programs do not have their own shelters and may use safe houses, other programs, or hotels to provide shelter; in some cases, shelter can be provided to sexual assault victims.

Community Coordination and Systems Advocacy – to enhance the community’s response to sexual and domestic violence.

Safety Planning – an assessment of immediate physical and emotional safety needs with persons who have experienced sexual and/or domestic violence, including children and others directly affected by the violence and help in developing individualized safety plans.

Community Education – trainings, workshops, public service announcements, giveaways (pens, emery boards, balloons, stickers, etc.), brochures, displays at conferences, and other methods to educate the community about the scope and impact of sexual and domestic violence, as well as how to help.

Outreach and Access for Underserved Populations – agencies determine the underserved populations in their service areas and develop strategies to reach these populations; examples of underserved populations may include non-English-speaking persons; teens; people of color; LGBT community; older women and men; people with disabilities, and others.
