### NEXT STEPS

#### 1. FIX YOUR GAZE

This expression came from Pastor Levi's point of "SEEING BEYOND". If our assessment of life is based only on what we can see, we are surely missing a lot. We aren't seeing a true picture. We know that God is stepping us through our days, our present circumstances, and our current set of challenges. The way things appear is almost never exactly the way they are. Fixing your gaze means fixing it on God and trusting whatever the very next step is. We pray and look for it, we expect it and we focus on it so He can lead us through all that He is laying out for us.

#### 2. LIVE IN ANTICIPATION

Pastor Levi calls it "EARNEST EXPECTATION". This resonates with the faith-filled life. If we say we are DRIVEN BY FAITH that God has given us a personal mission, (a Vision Core Value), and then we should get out of bed every morning with anticipation. We expect that God will be working through us throughout our day. Every encounter, every place, every door we walk through all day long could open up some opportunity to do something small or huge. We live with great appreciation and in cool anticipation all the time.

#### 3. THANK GOD FOR YOUR "EXTRAORDINARY PURPOSE"

Don't you love the life stories of people who have figured this out? They may be a doorman, a barista at Starbucks, accountant, salesman, mechanic, teacher, CEO, student, homemaker...but they see and love the powerful opportunities God has given them in life to love others and help them eternally. It's interesting that Vision has a team in Ethiopia right now and they are having the experience of helping people there. It's a very cool unique opportunity, but no more important than the mission we all are on every day here in our families, workplaces, neighborhoods and schools. Thank God for the amazing personal mission He has given all of us.
