

BATTERIES

- We will adhere to the Electrathon America rules on batteries as set down in their 2010/2011 Handbook.
- Remember the weight limit for two batteries is now 73 pounds.
- The following list of batteries is accepted as standard which means that two of the following batteries will be allowed regardless of actual weight:
 - Optima Yellow Top D35, D75/25
 - Optima Red Top SC25A, SC35A, SC75/35 (any letter suffix)
 - Odyssey Genesis G42 (VP, VPX, EP, EPX)
 - MK 40
 - Exide Orbital Model 75/35
 - Champion Vortex 75/35
- All other battery types outside this accepted group will be weighed as a pair.
