Hodgeman County	#146	14 Laps

## In the Solar Class:

Wheatland H S.	#384X	61 Laps
Scot City H.S.	#123X	58 Laps

The Team Spirit award this year goes to Olathe Northwest High School!

The races were held at a soggy West Frontier Park this year. The course was in very good condition, even though we had some flooding rains earlier in the week. The City of Hays Parks Department did a fine job of maintaining and preparing it! The weather was sunny and cool to start out with, but ended up getting pretty warm and muggy. There was little wind which made for a great day for racing!

A special thanks goes out to the Fort Hays State University Physical Plant personnel who have continued their support of our race day for the past 15 years!

The Ellis County Emergency Medical Services personnel has given their expertise and professional presence to the races for each of the past 15 years and for that they deserve our gratitude and thanks!

We must gain continue to thank all of our corporate sponsors of these races for their continued support year after year. Without them, there would be no High Plains Electrally.
