Yes, Worship Is Healthy

A national study soon to be published says that worshipping God is healthy. The survey, "Religious Involvement and US Adult Mortality." says weekly churchgoers will live to the age of 82 and those who attend more than once a week will live to the age of 83. On the other hand, non-churchgoers will live an average of 75 years.

Worship is good for us, but more important, it pleases God. God desires our worship and tells how to worship Him acceptably in Scripture, John 4.23-24.

Worshipping God is the right thing to do. It is also the healthy thing to do.

We'll save you a seat for next Sunday. Come worship with us.
