

NOTE: Applications are accepted through September and early October each year. The Local Mission committee makes budgeting decisions by the end of December for the following year.

Dear Community Partner,

Thank you for the work you do to make our community better!

The Presbyterian Church of Danville has been blessed with the means to support many efforts in Boyle County through funds generously given to the church for that purpose. We have been honored to partner with various organizations by providing funding in the past year. Our focus remains on meeting medical, health, housing, and food needs, and supporting education projects in those areas.

As we look toward next year's budget, we face important decisions and are asking you to help us make informed choices. If you would like your organization to be considered for funding next year (January-December), please submit the following to the church office at 500 W. Main Street, Danville, KY 40422.

- Mission statement or organizational goals
- Population served
- Overall budget (preliminary is fine)
- List of other funding sources with general amounts or percentages noted
- Amount requested from the Presbyterian Church for next year, and specifically how it will be used
- Digital photo (jpg format) that conveys what your organization does best (Note: We would like your permission to print this photo to communicate with our congregation how local mission needs are being met.)

Please contact the church office at 236-6692 with any questions. We look forward to hearing from you and hope to partner with you in the coming year!

Sincerely,
Members of the Local Mission Committee
